

## SERVICE INFO 2024/01: Product change, Particle filter SP015757

### PRODUCTS INVOLVED:

Product code	Product name
SP011996	PFU 210e
SP015757	PARTICLE FILTER
SP9320002	PRE-FILTER
SP012223	ODOR FILTER
SP027163	ODOR PRE-FILTER

### IDENTIFICATION:

Powered air purification respirator unit PFU 210e PARTICLE FILTER SP015757 (2).

### Spare part items:

1. SP012223 ODOR FILTER
2. SP015757 PARTICLE FILTER
3. SP9320002 PRE-FILTER
4. SP027163 ODOR PRE-FILTER

### DESCRIPTION:

Particle filter has been improved (more paper) for better air flow and longer battery life. In old system the odor filter (1) was fitted inside particle filter (2).

New particle filter (2) has a thicker inner section so old odor filter (1) would prevent closing the PFU 210e filter cover. New type particle filter (2) can be used with new type odor pre-filter (4) that is installed after the spark filter and before the particle filter. In this case pre-filter is not used.

OLD SYSTEM

NEW SYSTEM

WHEN NEEDED:

When change a new type of particle filter SP015757 to PFU 210e respiration unit.

PARTS:

SP015757	PARTICLE FILTER
SP027163	ODOR PRE-FILTER
