Lock button, stainless steel

Lock axis, diameter 10 mm
Length : 45 mm

Anchorage ring 30 mm

Standard karabiner ref 1009250
Breaking strength : 2250 daN
Opening : 18 mm

Product : Rope grab for 14 mm rope with a standard karabiner. The blocmax is an automatic rope grab which follows the user's ascent or descent on the line. The manual function locks the rope grab on the rope restricting movements to a specific direction. This function is very useful when working horizontally or on a roof.
Minimum fall clearance : 1.80 m under user's feet

Standard : EN 353-2 guided type fall arrester on a flexible anchorage line

Certificate : 1009110 : CE n° 0082/036/160/11/95/0328
1009107 and 1009116 : CE n°0082/036/160/12/95/0332

Impact force : <600daN

Weight : 0.940 KG
