

Anatomic Bau – Experience the comfort!

The ATLAS[®] Anatomic Bau safety shoes are specially made for professional building workers according to EN ISO 20345 S3. Premium leather, individual fit in different wideness and the ATLAS[®] Power Point[®] cushioning system provides an optimal comfort even after a long working day.

For especially high requirements all Anatomic Bau models are equipped with a puncture resistant sole. The special studs profile of 4,5 mm provides a safe appearance.
