

METAL DETECTABLE

Product Description

The Glove Guard®, Utility Guard® and Handi Klip® lines are now offered in a version that is moulded entirely out of a metal detectable plastic. This was designed specifically for use in the food processing industry to safely keep your gloves close at hand.

Code	Type
UG1MD	Metal Detectable Utility Guard®
GG1MD	Metal Detectable Glove Guard®
HK1MD	Metal Detectable Handi Klip®

*Metal Detectable requirements vary. Therefore our metal detectable products should be tested for compliance with your company's specifications. *not dielectric*
