

Impressive Innovation In a Compact Size

Latchways ManSafe® Mini SRL

Suitable for multiple applications, the 1.8 m (6 ft) ManSafe Mini SRL is designed specifically for environments where close anchorage is available.

Compact and Versatile

Latchways' innovative engineering helps to ensure our new Mini SRL is far more compact and lightweight. Invertible, and with three connectors to choose from, this Mini SRL is built for use in every environment.

Reliable and Reassuring

Latchways' Lifecycle Warranty means users can work at height with confidence that the Mini SRL will continue to provide safety when it matters most. The product offers fall arrest and restraint for users 60 to 140kg (130 to 310lbs) including tools.

Strong and Tested

The highly durable polycarbonate case protects the Mini SRL's internal components from any impact damage, and can withstand temperatures ranging from -40 to +54°C (-40 to +130°F). Its high-strength webbing lifeline has been manufactured to the highest standard in accordance to Latchways' strict quality-control procedures. The ManSafe Mini SRL has been tested to meet the relevant standards:

EN360: 2002

ANSI Z359.14 – 2012

OSHA 1910.66

OSHA 1926.502

CSA Z259.2.2-98 (R2004)

Latchways ManSafe® Mini Self-Retracting Lifeline

**The most
technologically
advanced SRL
available.**

The world's first self-retracting lifeline with multiple spring radial energy-absorbing technology

- Pre-engineered energy absorber
- Requires zero recalibration or adjustment
- The energy absorber is completely sealed from external contaminants

Free range of motion

A fully rotating attachment point for complete flexibility – both 360° and 180°

Precision engineering

A structurally reinforced pawl mechanism

Highly durable

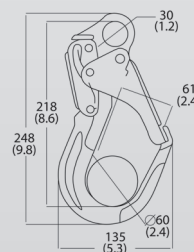

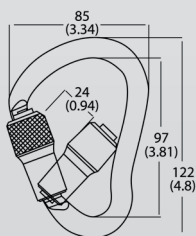

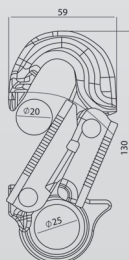

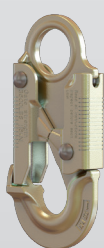

A polycarbonate casing houses the SRL, and its transparency allows for easy visual inspection of critical internal components

Superior materials

Components manufactured from high-grade stainless steel and engineered plastics

Available connectors:

The ManSafe Mini SRL is supplied with a choice of steel or aluminium top carabiner and has a range of connectors available.

Forged Steel Snaphook

- Double action/self-locking gate
- High-tensile steel material
- Zinc-plated finish
- EN, ANSI and CSA compliant

Carabiner/Hook

- Triple locking gate
- Aluminum alloy
- EN, ANSI and CSA compliant

Aluminum Scaff Hook

- Aluminum alloy
- EN, ANSI and CSA compliant
