ALUFERRO 49 53

Regulation	EN ISO 20345:2011 - EN ISO 20349:2010
Certification	S3 + WG + AL + FE + CI + HI + AN + HRO + SRC
Class	1
Category	II
Size (Continental)	35-48
Colour	Black
Design / Kind	Boot / Type B
Electrical Resistance	Antistatic
Closure System	Leather Turn Up Collar with Velcro, Interior Laces and Bellows.

UPPER MATERIAL	Water-Repellent and Fireproof Natural Full Grain Leather

TOECAP	"Fiberplast" Composite 200 J.
MIDSOLE	Non-metallic anti-perforation
OUTSOLE	PU + Nitrile Rubber for High Temperatures +300ºC

DESCRIPTION OF COMPONENTS

Lining	Covered Coagulated Fabric
Insole	AntiHeat, AntiStatic, AntiBacterial and Anti-Fungal.
Upper-Sole Union	Direct Injection to the Upper.

technology **PANTER**®

Optimal Sole

EXTRA CUSHIONING AND STABILITY

NEW OUTSOLE DEVELOPMENT WITH IMPROVED CUSHOMING AND ENERGY RETURN

BENEFITS FOR THE USER

- · Turns the kinetic energy of each step into impetus for the next step.
- · Enhances the comfort:

Balanced distribution of foot pressures.

Less muscle fatigue.

Reduction of lumbar pain.

Less risk of injuries.

certificate

Oeko-Tex

MANUFACTURED USING
HYPOALLERGENIC
FABRICS

Antibacterial and anti-fungal 100% Breathable Ecological and recyclable Long-lasting durability Improves comfort

BENEFITS FOR THE USER

All the textiles employed in PANTER footwear are in accordance with the Standard 100 OEKO-TEX (confidence in textiles). This certification guarantees that all the textiles employed are exempt from substances that might be harmfull for the humans or the environment.

All the utilized materials have been treated to avoid the bacteria and fungus proliferation that may cause infections, bad smells or skin problems.

technology PANTER® Metal Free

WITHOUT METALLIC ELEMENTS

ADVANTAGES

· 40% LIGHTER

A lower weight is achieved with a metal free toe cap and sole, this brings greater comfort and relief to the foot.

50% MORE FLEXIBLE

We achieve a more flexible and comfortable footwear with a metal free insole, taking into account a factor as important as the natural flexion of the foot.

100% METAL FREE

PANTER® metal-free safety footwear is free of metal elements both inside (puncture-proof textile sole, anti impact plastic toe cap) and outside the shoe (textil or plastic D-rings, non-metallic ornaments, etc)

IMPROVED THERMAL INSULATION

Metals are not good thermal insulators, whereas composites and fiberglass get a significant improvement in thermal insulation, protecting against heat or cold.

NON-MAGNETIC

We obtained a non-magnetic shoe made of non-metallic materials, so that it is not detected in metal detectors.

ANTISTATIC

We also obtained a shoe without static electricity, thus increasing the comfort of the user.

IMPACT'S RESPONSE

Another very important characteristic is the response of the material after an impact. This type of material, unlike steel, recovers its shape after impact thanks to the elastic memory. This is very important in case of entrapment as it facilitates the removal of the foot.

CORROSION RESISTANT

There is no risk of oxidation as it is a non-metallic material.
