

Code No: **F800 / F801**

**Description:**

Head mounted Visor Frame with Ratchet Headgear

**Materials:**

F800 / F801 Browguard - Polycarbonate

Headgear Moulding – LDPE

Headgear Tapes – Nylon Webbing

**Certification:**

Browguard CE Certified to EN166 3 9 B

Polycarbonate Visors CE Certified to EN166 1 3 9 B

Acetate Visors CE Certified to EN166 1 3 F

**Application:**

Suitable for use in General, Heavy-Duty and Chemical environments. The visor carriers are approved with a range of visors in a number of different materials.

**Maintenance:**

Visor carriers should be inspected before each use to ensure that they are not damaged and they can secure the visor correctly as specified in the instructions for use. Any defective visor carriers should be discarded immediately and replaced. It is not possible to repair the visor carrier.

**Cleaning:**

Regular cleaning using warm water and soap is all that is required.

**The use of solvents, very hot water or harsh abrasives is not recommended.**

## Product Data Sheet
