1. ARTICLE AND STANDARD.

REF. IM25JCB MID S3 NO METAL

2. PICTURES

3. MATERIALS

ITEM	MATERIAL	FINISHING	COLOR	COMMENTS
UPPER 1	Cow split leather	Embossed	Black	Thickness 1,4 mm - 1,6mm
TONGUE	D7 PU	-	Black	
FOOTBED	Plane EVA	Mesh	Black	Antistatic stitching Ironed on the front
COLLAR	D7 PU with EVA	-	Black	Thickness of EVA is 2.0mm
VAMP LINING	Non woven fabric	-	White	Thickness is 1.2cm
BACK PART LINING	PK Mesh+foam+TC+ Grey Reinforcement	-	Black/red+ black+ grey	Thickness of foam is 3mm
SOLE	PU/PU	-	Black midsole : 40-50° (hardness ) /Black outsole 60-72° (hardness) And the density :0.9-1.0	antistatic
LAST	006			
TOE CAP	Fiberglass toe cap	-	-	006
INSOLE	Anti-perforation insole			
TONGUE FOAM	Low-elasticity foam	-	-	Thickness 10mm
COLLAR FOAM	Recycling foam	-	-	Thickness 13mm
BACK COUNTER	Chemical sheet	-	-	Thickness 1.8mm
D-ring	D-ring	Plastic	Black	16 pieces
THREADS	Polyester	-	Gray/Red	-

11. TESTS

- 1.- Before the production starts, the following tests of the safety components (impact, compression and penetration tests), must be done in our internal laboratory. The test report will be sent immediately to the whole quality team to be analyzed.
- 2.- In the same way and before the production starts it's necessary to arrange a Chromium VI test at Intertek laboratory to ensure our products are manufactured without this toxic component. The results must be available before the start of production.
