

## Technical Data Sheet

### M08SC3BAG Hi-Vis Orange Protective Bag

The Martindale "High Visibility " Protective bag has been designed to protect & store the Martindale Full Face Mask but can also be used for the storage of other respiratory equipment.

The bag is closed by means of a drawstring which effectively protects the mask from contamination.

It is made of Polyester with a water proof coating.

The bag is printed with an ID/Name area in order for the user to write their ID/Name for easier identification.
