FLAME RETARDANT NECK PROTECTION

599900 - Accessories FR

EN ISO 11612
A1+A2 B1 C1

EN 1149-5

OEKO-TEX®

F1

Non-metal and Inherent Flame Retardant neck protection that provides good protection against exposure of Electric Arc. 20% recycled cotton.

The neck protection also prevents molten metal getting under the collar. It can be 'pulled' up and used as a balaclava which then gives protection to the ears and open skin/hair. To obtain protection to the front of the face, pull up the neck protection from the front. The neck protection can also be worn as a neckerchief and protects against cold.

Color: 03 navy
