

PRODUCT NUMBER: 1014252

R5 Premium Revolution - Telecom&Utilities - DuraFlex - Size L/XL

3-point, DuraFlex Webbing, with quick-fixing buckles, rotating work-positioning belt, size L/XL

Honeywell
MILLER

Overview

Reference Number

1014252

Product Type

Fall Protection

Range

Harness

Brand

Miller by Honeywell

Industry

- Telecoms
- Utilities

Product Use

3-point full body harness for use with a fall arrest device and suitable anchorage point. The robust Miller Revolution harness is ideal for scaffolding, steel erection, tower building and maintenance thanks to the unique Revolution technology and a multitude of key features. The PivotLink™ connections are located at hip level for a smoother movement during ascent and descent. A pivoting work-positioning belt offers greater freedom of movement and reach.

Features & Benefits

Feature

Made from patented elasticated DuraFlex™ webbing with shape retention memory, the R5 Premium Revolution 3-pt harness is ideal for telecoms and utilities thanks to the unique Revolution technology and a multitude of key features. The PivotLink™ connections are located at hip level for a smoother movement during ascent and descent. Fitted with a pivoting work-positioning belt and quick fixing buckles.

Benefit

PivotLink Connection (patent pending) : This unique rotary design provides greater comfort in bending or mobility. Positioned at waist level to mirror the bending and squatting movements of the worker in construction and maintenance. Provides attachment point for tools and accessories. Made of stainless steel for corrosion resistance.

ErgoArmor Back Shield : This semi-flexible back shield minimizes impact from sharp / heavy snap hooks and self retracting lifelines. The self-adjusting channels conform to a variety of body shapes. The padding conforms to unlimited back contours while allowing superior air flow. A knitted mesh membrane minimizes moisture absorption and maintains an optimal air

circulation whilst also helping to position the back D-ring correctly.

Self Contained Label Pack (patent pending) : encapsulates labels minimizing damage and loss. Durable, polymer construction for extended service life. Integrated and oversized pull-free lanyard rings (patent pending).

Cam Buckle (patent pending) : Easy, one-hand adjustment / release allows simultaneous adjustment of shoulder straps. Promotes proper snug fit; will not slip or misadjust. Constructed of high-tech polymer, lightweight aluminium and stainless steel materials that resist rust/corrosion.

Web Finials (patent pending) : Clip-on design safely organises webbing after proper adjustment. Constructed of durable, high-impact resistant polymer. Provides positive gripping surface for easy web adjustment.

Integrated Accessory System : Modular attachment design provides connection points for tools and accessories which can be easily attached/removed for greater comfort and convenience. Designed to distribute the weight of accessories across the hips and shoulders for comfort and mobility.

DuraFlex Webbing™ : Patented, elastomer webbing specially formulated to stretch with the user's movements so there is no bunching or binding.

Pivoting Work positioning belt for greater freedom of movement and reach.
