

PRODUCT NUMBER: 6213403
BACOU HORALO S1P HRO
SRC

Specific rubber soled safety high leg ankle boot for steel works with 200J toe cap and anti-puncture steel midsole

Honeywell

Overview

Reference Number

6213403

Product Type

Footwear

Range

nitlite

Brand

Honeywell

Brand formerly known as

BACOU

Industry

- Metal steel
- Welding

Product Use

Pigmented black leather ankle boot. Anti-spark bellow with quick release buckle. Resistant and smooth fabric lining and padded ankle collar. Complies with EN ISO 20345:2011 S1P HRO SRC standard.

Features & Benefits

Feature

Nitrile Outsole

Benefit

Resistant to heat by contact up to 300°C

Feature

EN ISO 20345:2011 S1P HRO SRC standard

Benefit

Ensures better protection

Technical Description

Sizes

EU: 38-47 UK: 5-12

Midsole

Stainless steel

Upper

Pigmented leather with quick release buckles

Toe Cap

Metallic 200J

Insole

Perforated

Outsole

Vulcanized Nitrile

Additional Features

- HRO
- SRC

Additional Information

User Manual

User Instruction EN ISO 20345 2011-Footwear-Honeywell-032012

Maintenance

Life Cycle

- We advise that the footwear should be used in the limit of 3 years following the manufacturing date, which figures on the footwear.
- After this time limit, certain factors such as: exposure to sunlight, hydrometry, temperature changes, could cause a modification in the structure of the material, which would no longer maintain the same performance levels with regards to the requirements defined in the European Directive 89.686 CEE.

Storage Information

Footwear should be stored in their original packaging, kept in a controlled stock area, not subject to rapid changes in temperature or humidity levels.

Care Instructions

- After use leave your footwear to dry in an aired place away from heat. Remove any excess dust or dirt with a brush. Remove any marks using a damp cloth and soap if necessary.
- Finally polish any grain or pigmented leathers using a commercially available shoe care product.
