## Features & Benefits

### Feature

Fine and stylish outsole

### Benefit

Flexible and light Slip resistance on different types of surfaces

### Feature

200J safety toecap

### Benefit

Offers optimal protection

### Feature

Leather lining and leather insole

### Benefit

Comfort and durability

### Feature

High quality leathers in classical colours (brown and black leather)

### Benefit

Suitable for different working environments

## Technical Description

### Sizes

35-42

### Table Size

Table Size

### Upper

Full grain leather upper Leather lining choix : laces black/beige

### Toe Cap

200 J , steel toe cap

### Insole

Leather insole

### Outsole

Black PU monodensity sole Shock absorption capacity > 20 joules Good abrasion resistance High resistance to fuel oil High stretching resistance . Good resistance to repeated flexing (106 flexes) Slip resistance coefficient> 0.17 Test method EN 13 287 : 2004

### Additional Features

- SRC

## Certifications

### E.C. Declaration of Conformity

#### EC Category PPE

2

#### Quality Assurance

ISO 9001 / 2008

#### EC Certificate Number

0075/797/161/02/13/0136 ext 04/02/13

#### EC Attestation

 EC Attestation

## Photos & Images

We're sorry, there are no images available at this time.

## Maintenance

### Life Cycle

If the footwear is supplied with a part of, or the whole sole unit made of polyurethane: We advise that the footwear should be used in the limit of 3 years following the manufacturing date, which figures on the footwear.

After this time limit, certain factors such as : exposure to sunlight, hydrometry, temperature changes, could cause a modification in the structure of the material, which would no longer maintain the same performance levels with regards to the requirements defined in the European Directive 89.686 CEE.

If the footwear is supplied with a sole unit made from a material other than polyurethane: We advise that the footwear should be used in the limit of 5 years following the manufacturing date, which figures on the footwear.

### Storage Information

Footwear should be stored in their original packaging, kept in a controlled stock area, not subject to rapid changes in temperature or humidity levels.

### Care Instructions

After use leave your footwear to dry in an aired place away from heat.

Remove any excess dust or dirt with a brush. Remove any marks using a damp cloth and soap if necessary.

Finally polish any grain or pigmented leathers using a commercially available shoe care product
