Features & Benefits

Feature

PU outsole

Benefit

Slip resistance on different types of surfaces

Feature

200J safety toecap

Benefit

offers optimal protection

Technical Description

Sizes

35-42

Table Size

Table Size

Upper

Grain leather, 1.6-1.8 mm Entirely leather lined

Toe Cap

100 J Epoxy treated, steel, safety toecap.

Insole

Leather insole

Outsole

Nitrile. Energy absorption capacity > 20 joules Excellent abrasion resistance Good resistance to hydrocarbons Very good resistance to heat High resistance to all current chemical agents Good elongation at rupture Good resistance to flexion- 4 cm heel Adherence coefficient: SRA, according to EN ISO 20346: 2004/Am.1: 2007

Maintenance

Life Cycle

If the footwear is supplied with a part of, or the whole sole unit made of polyurethane: We advise that the footwear should be used in the limit of 3 years following the manufacturing date, which figures on the footwear.

After this time limit, certain factors such as : exposure to sunlight, hydrometry, temperature changes, could cause a modification in the structure of the material, which would no longer maintain the same performance levels with regards to the requirements defined in the European Directive 89.686 CEE.

If the footwear is supplied with a sole unit made from a material other than polyurethane: We advise that the footwear should be used in the limit of 5 years following the manufacturing date, which figures on the footwear.

Storage Information

Footwear should be stored in their original packaging, kept in a controlled stock area, not subject to rapid changes in temperature or humidity levels.

Care Instructions

After use leave your footwear to dry in an aired place away from heat.

Remove any excess dust or dirt with a brush. Remove any marks using a damp cloth and soap if necessary.

Finally polish any grain or pigmented leathers using a commercially available shoe care product
