

TEGERA® 484

Reliable, double-stitched glove

A reliable double-stitched fabric-glove with good grip for a variety of hot jobs.

TEGERA 484 is manufactured in double-stitched cotton and supported with a nitrile structure in the palm and on the back. It provides good grip and a certain protection against cuts and tears. The mitten withstands heat up to 200°C during short periods. The reliable cuff of ten cm protects your wrists.
