

FIRST BASE 3 – BEANIE

BUMP PROTECTION

SETTING THE TREND IN BUMP PROTECTION

The First Base 3 Beanie bump protection cap has evolved as a direct result of listening to our customers needs to integrate a more fashionable element to protective headwear. Giving workers a choice of bump cap styles has been observed to have a direct influence on the level of acceptance and actual use; helping to ensure there is less concern those workers may bump or lacerate their scalp.

First Base 3 Beanie helps remove the uncertainty a safety officer faces that a worker may be wearing a regular non protective cap, whilst meeting the fashion requirement workers appreciate and complimenting corporate identity.

PRODUCT HIGHLIGHTS

- Elasticated knitted acrylic beanie cap provides a universal fit to a wide range of head size
- Stylish cap design ensures high levels of wearer adoption and acceptance
- CE certified to EN812:A1
- Flexible ABS protective shell guards against bumps and lacerations to the head
