Nitrile dipped coating on a jersey liner

PRIMARY INDUSTRIES

IDEAL APPLICATIONS

- Construction materials, concrete, bricks and tiles
- Rough timber, dry walling and plywood
- Rough castings and cores
- Cold plastic mouldings
- Steel bars, sheet metals, cans and other metal products
- Heavy-duty cables
- Street cleaning and refuse collection

DESCRIPTION

- A big tough glove for a rough, tough life: three times more durable than heavy-duty leather.
- Unique Ansell nitrile formulation. Offers superior resistance to sharp and abrasive materials.
- Stronger and more flexible than PVC. Also provides excellent barrier to grease and oil, and does not degrade like leather or cotton.
- Made without silicone. Guaranteed clean for metals and motor manufacture.
- Wide selection of styles, lengths and sizes. Allows you to chose the optimum combination of features for your particular application.

REMARKS

- Antistatic according to EN1149

EN 388
4221   **CATEGORY II**
