

■ SFE420 - SFE421

➔ Steel lockout hasps

► USE

Lockout by multiple workers at each lockout point.
Keeps equipment inoperative while repairs or adjustments are made.
Control cannot be turned on until last worker's padlock is removed from hasp.

► SPECIFICATIONS

Heavy gauge steel jaw with red vinyl coated handle.
Holds up to 6 padlocks with shackles up to 6,35 mm in diameter.

Reference	Description	Dimensions (mm)	Inside jaw diameter	Weight (g)
