This item is in accordance with the directive 89/696/EEC clauses : innocuousness, comfort, solidity and to the paragraph 3.3 of the appendix 2 : protection against physical aggressions.

It was the object of the certificate This glove is under the certification process N° 0075/076/162/09/12/0711 given by CTC – CENTRE TECHNIQUE CUIR CHAUSSURE MAROQUINERIE - (n° 0075) – 4, rue Hermann Frenkel - F – 69367 – LYON

STANDARDS REFERENCES

Properties to the European standards EN 420 + A1 (2009), EN 388 (2003)

A high level means a good protection. (0 = level 1 not reached ; X = test not made).

EN 388 (2003) : mechanical risks	
	<i>Abrasion</i> : 4 / 4 <i>Cut</i> : 1 / 5 <i>Tear</i> : 2 / 4 <i>Puncture</i> : 1 / 4
EN 420 + A1 (2009) : general requirements	
<i>Dexterity</i> : 5 / 5	

The performances concern only the palm of the glove.

Levels of performance are obtained from tests made in environment conditions precisely defined in the standards. Therefore, any use in new conditions is the responsibility of the user.

USING INSTRUCTIONS : Protective glove exclusively against **mechanical risks** in dry or greasy environnement. These gloves have got a tensile strength and must not be used when there is a risk of snapping up by machines in movement.

PERSONAL PROTECTIVE EQUIPMENT : CATEGORY II

STORAGE AND MAINTENANCE INSTRUCTIONS : Keep away from light and humidity, rather in a temperature bet between 5°C to 25°C in ventilated rooms. The long-term storage (> 1 month) in extreme temperatures can cause product damages. By nature, the nitrile is sensitive to temperature variations.

Regeneration is under users responsibility. We do not guarantee the regenerated products performance levels.
